MicrobeCare Antimicrobial

NOTICE OF PESTICIDE
Registration
Reregistration

(under FIFRA as amended)

Name and Address of Registrant (include ZIP Code)

Patrick Eddy CEO
MicrobeCare
P O Box 70908
Albany GA 31708

Note Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant the above named pesticide is hereby registered/reregistered under the Federal Insecticide Fungicide and Rodenticide Act

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment the Administrator on his motion may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product (OPP Decision No D 468506 is unconditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you

1 Submit and/or cite all data required for registration of your product under FIFRA sec 3(c)(5) when the Agency requires all registrants of similar products to submit such data and submit acceptable responses required for re registration of your product under FIFRA section 4

2 Make the labeling changes listed below before you release the product for shipment

a Revise the EPA Registration Symbol to read EPA Reg No 89160 2

## MicrobeCare Antimicrobial A Silane Quaternary Ammonium Salt

ACTIVE INGREDIENT		
	3 (trihydroxysilyl) propyldimethyloctadecyl ammonium chloride	3.6%
INERT INGREDIENTS		96.4%
TOTAL		100.0%

**KEEP OUT OF REACH OF CHILDREN**

### CAUTION

#### FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment

If in eyes	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present after the first 5 minutes, then continue rinsing. Call a Poison Control Center or doctor for treatment advice.
------------	---

### PRODUCT FEATURES AND BENEFITS

MicrobeCare Antimicrobial imparts durable biostatic activity to the surface of a wide variety of substrates.

MicrobeCare Antimicrobial is effective against mold, mildew, and algae as a static agent. Increased efficiency through proper application, durable bacteriostatic, fungistatic, and algistatic surfaces can be attained with a minimum amount of MicrobeCare Antimicrobial.

Provides freshness and combats deterioration and discoloration caused by bacteria, fungi, and algae.

## PRECAUTIONARY STATEMENTS

### HAZARD TO HUMANS AND DOMESTIC ANIMALS

**CAUTION** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

### ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA. Deactivation may be required during clean up if a spill occurs. Deactivation of MicrobeCare Antimicrobial can be achieved by the addition of an anionic surfactant or detergent (such as soap, sulfones, or sulfates) in quantity equivalent to that of the active ingredient.

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its label.

**FOR INDUSTRIAL USE:** This product is registered for formulation into Antimicrobial Products or as a microbiostatic agent for material preservation.

Antimicrobial product formulations containing MicrobeCare Antimicrobial require approval by the US EPA for antimicrobial claims made. Formulators are responsible for satisfying registration requirements for their formulated products.

For use as a microbiostatic agent for material preservation, neither this product nor the articles treated with this product may state or imply any public health claims. Articles or substances treated with this product will be exempt from FIFRA regulation pursuant to 40 CFR 152.25(a) if the intended use for incorporating this material into a treated article or substance is for the protection of the article or substance itself.

**APPROVED USES:** MicrobeCare Antimicrobial may be applied to or incorporated into manufactured products listed below for use in industrial, institutional, commercial or residential locations for non food contact uses:

**Plastics, fiberglass, metals, glass, wood, ceramics, stone, natural materials, composites.** Including air filters for furnaces, air conditioners, air purification devices, automobiles, and recirculating air handling systems, aquarium filters, automotive and veh.ular parts, roofing materials (tiles, shakes, shingles, granules, stone, membranes, felt, underlayment and synthetic overcoats), building materials and components (including siding, wallboard, wood and wood composites, insulation and non food contact cabinetry), ceiling tiles, concrete products, dry concrete and grout mixes, non food contact conveyor and humidifier belts, non food contact countertops, fiberglass ductboard for air handling systems, floor covering, flooring, general purpose (non food contact) containers, furniture, bathroom and non food contact kitchen hardware, mats, plumbing supplies and fixtures, and formed glass, mops, vacuum cleaner bags and filters, foam for packaging and cushioning in nonfood contact applications.

**Fibers fabrics (natural and synthetic woven and non woven) leather and household materials (natural and synthetic)** Including buffer pads (abrasive and polishing) mattress cover pads filling and ticking pillow covers sheets blankets bedspreads fiberfill for upholstery apparel recreational gear quilts and pillows curtains draperies carpet and carpet underlay rugs upholstery towels shower curtains toilet tank and seat covers wall covering fabrics and wallpaper (including vinyl) for non food contact surfaces umbrellas fire hose fabric non woven disposable diapers wiping cloths pre moistened towelettes and tissue wipes (these do not impart pesticidal properties) apparel including outerwear sportswear sleepwear socks hosiery undergarments gloves and uniforms footwear (boots shoes and components) sports equipment and athletic gear cloth for sails ropes tents and other outdoor equipment sand bags tarps awnings book covers pictures

**Miscellaneous Manufactured Products** Paints and Coatings disposable foam cushions for Lapidus Airfloat Systems foam used as a growth medium for non food crops and plants ~~MicrobeCare Antimicrobial provides residual self-sanitizing activity against athlete's foot fungus (Trichophyton mentagrophytes) on treated socks Durable for up to 10 repeated washings prevents 99.9% of the growth of athlete's foot fungus on the sock~~

**HOW TO USE**

Wear protective eyewear (goggles or face shield) and rubber gloves when using this product

MicrobeCare Antimicrobial can be applied to organic and inorganic surfaces as a dilute aqueous solution to give 0.1 to 1.0 percent by weight of active ingredients. Aqueous solutions can be prepared by simply adding the antimicrobial agent to water with stirring. **NOTICE** Poor agitation when adding this silane to water can result in locally high concentrations which may form gel particles. Surfaces can be treated with the aqueous solution by brushing dipping padding soaking spraying until adequately wet or applying by foaming techniques. After applying treatment the surface should be allowed to dry at temperatures from ambient to a maximum of 160 C (320 F) to effect complete curing of silanol groups and to remove water solvents and/or traces of methanol from hydrolysis. Curing of polymer may be accelerated or enhanced with heat or catalysis. For each application determine optimum application and drying conditions such as time and temperature before use. If desired reapply MicrobeCare Antimicrobial if odor staining and discoloration due to bacteria mold or mildew occur.

Incorporate MicrobeCare Antimicrobial directly into formulations used to make end use products or dilute with water and then apply it to the organic and inorganic surfaces to give 0.1 to 1.0 percent by weight of active ingredient

## COMMERCIAL USE PRODUCTS

### PRECAUTIONARY STATEMENTS

#### HAZARD TO HUMANS AND DOMESTIC ANIMALS

**CAUTION** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

#### ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA. Deactivation may be required during clean up if a spill occurs. Deactivation of MicrobeCare Antimicrobial can be achieved by the addition of an anionic surfactant or detergent (such as soap, sulfones, or sulfates) in quantity equivalent to that of the active ingredient.

#### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its label.

**FOR COMMERCIAL APPLICATIONS (IN HOMES, OFFICES, AUTOMOBILES AND INSTITUTIONS)** This product is registered as a microbiostatic agent for material preservation only. Neither this product nor the articles treated with this product may state or imply any public health claims. Articles or substances treated with this product will be exempt from FIFRA regulation pursuant to 40 CFR 152.25(a) if the intended use for incorporating this material into a treated article or substance is for the protection of the article or substance itself.

**APPROVED USES** MicrobeCare Antimicrobial is effective against odor-causing bacteria, bacteria which cause staining and discoloration, fungi (mold and mildew) and algae as a static agent. It can be used as a final bacteriostatic finish on the following items to impart bacteriostatic/fungistatic (mold and mildew) activity:

- Carpet, draperies and upholstery, furniture, bedding and linens, shoes and apparel, book covers, and pictures.
- Plastics, fiberglass, metals, glass, wood, ceramics, stone, natural materials, composites, including air filters for furnaces, air conditioners, air purification devices, automobiles, and recirculating air handling systems, automotive and vehicular parts, concrete products, roofing materials (tiles, shakes, shingles, granules, stone, membranes, felt, underlayment and synthetic overcoats), building materials and components including siding, wallboard, wood and wood composites and insulation, non-food contact hard surfaces including floors and floor covering, walls, ceilings, ceiling tiles, ceramic tile, non-food contact countertops, concrete, chrome, stainless steel, fiberglass, vinyl, porcelain, fabric and paper wall covering, wood and glass fixtures, marble, aluminum, and non-food contact cabinetry.

HOW TO USE

Wear protective eyewear (goggles or face shield) and rubber gloves when using this product  
Dry treated areas and articles such as clothing before use Remove children and pets from treated area until completely dry Clean surfaces prior to application

MicrobeCare Antimicrobial can be applied to organic and inorganic surfaces as a dilute aqueous solution to give 0.1 to 1.0 percent by weight of active ingredients (suggested starting level is 1 part of MicrobeCare Antimicrobial to three parts of water) Aqueous solutions can be prepared by simply adding the antimicrobial to water with stirring Surfaces can be treated with the aqueous solution by brushing dipping padding soaking spraying until adequately wet or applying by foaming techniques

After applying treatment the surface should be allowed to dry at temperatures from ambient to a maximum of 160 C (320 F) to effect complete condensation of silanol groups and to remove water solvents and/or traces of methanol from hydrolysis If necessary reapply MicrobeCare Antimicrobial every three months or when odor staining and discoloration due to bacteria mold stains and mildew stains return

For Commercial Spray Equipment and Pump Spray Application Dilute 1 part of MicrobeCare Antimicrobial to three parts of water Apply (with pump sprayer spray 4-6 inches from the surface) entire area making sure the surface is completely covered then let stand until dry or let stand 3 minutes and wipe dry with cloth or sponge If spotting occurs wipe with moist cloth or sponge Test for staining and colorfastness of fabrics and carpets by treating and drying a small concealed area prior to application When treating coarser substrates more MicrobeCare Antimicrobial may be required due to absorption

For Dipping/Soaking Application Use appropriate sized washbasin or tub for dipping/soaking the item you are treating Use enough MicrobeCare Antimicrobial solution to completely submerge item Dilute 1 part of MicrobeCare Antimicrobial to three parts of water mix well Completely submerge item in solution for 3 minutes Remove item and dry Test for staining and color fastness of fabrics by treating and drying a small concealed area prior to application Do not reuse solution after dipping/soaking The substrate can be dried at room temperatures or at temperatures to a maximum of 160 C (320 F)

For each application determine optimum application and drying conditions such as time and temperature before use If desired reapply MicrobeCare Antimicrobial if odor staining and discoloration due to bacteria mold or mildew occur

## CONSUMER USE PRODUCTS

### PRECAUTIONARY STATEMENTS

#### HAZARD TO HUMANS AND DOMESTIC ANIMALS

**CAUTION** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

Under the Federal Insecticide  
Fungicide and Rodenticide Act as  
amended on the pesticide  
registered under EPA Reg No 89160 2

#### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its label.

Wear safety glasses and rubber gloves when using this product. Dry treated areas and articles such as clothing before use. Remove children and pets from treated area until completely dry. Clean surfaces prior to application.

#### WASHABLE LINENS, DRAPERIES, FABRIC, BEDDING AND APPAREL

**Dipping/Soaking** Use a wash tub or machine for soaking the items you are treating. Always treat only clean items and use only fresh rinse water.

**Wash Tub** Use washbasin or tub big enough to completely soak the item you are treating. Add 1 ounce of MicrobeCare Antimicrobial to sufficient water to soak 4 lbs of fabric. 2 ounces of MicrobeCare Antimicrobial for 8 lbs. Completely submerge items in solution for 3 minutes. Remove items and dry. Test for staining and color fastness of fabrics by treating and drying a small concealed area prior to application. Do not reuse solution after dipping/soaking. The substrate can be dried at room temperature or in a clothes dryer at the appropriate setting for the items.

**Washing Machine** Clean items first. Then run only rinse cycle. Add 2 ounces of MicrobeCare Antimicrobial for small load, 3 ounces for medium load or 4 ounces for large load settings on the machine. Run the full rinse cycle to treat the fabrics, then allow to dry overnight or use a dryer under the appropriate heat setting for the fabrics being treated. Test for staining and color fastness of fabrics by treating and drying a small concealed area prior to application.

**Spray** Clean items prior to application. Dilute one part of MicrobeCare Antimicrobial to three parts of water and mix or shake well. Using trigger pump sprayer or pressure sprayer, spray entire surface area 4 - 6' from the surface making sure the surface is completely covered. Let stand until dry or dry under the appropriate heat setting for the fabrics being treated. If spotting occurs, wipe with moist cloth or sponge. Test for staining and color fastness of fabric by treating and drying a small concealed area prior to application. If necessary, reapply every three months or when odor, staining, and discoloration due to bacteria, mold stains, or mildew stains return.

#### CARPET AND UPHOLSTERY/FURNITURE

**Spray** Always apply only to clean surfaces. Dilute one part of MicrobeCare Antimicrobial to three parts of water and mix or shake well. Apply to carpet and furniture using a trigger pump sprayer or pressure sprayer. Spray entire surface from 4 - 6' distance until completely covered. The amount needed for treatment will depend on the coarseness and absorbency of the material being treated. Allow to dry thoroughly before re-entry. A fan may be used to assist in drying carpeting. Remove children and pets from treated area until completely dried. If spotting occurs, wipe with moist cloth or sponge. Test for staining and color fastness of fabric by treating

9/12

and drying a small concealed area prior to application. If necessary, reapply every three months or when odor, staining, and discoloration due to bacteria, mold stains, or mildew stains return.

**FOR BATHROOM AND NON FOOD CONTACT BUILDING SURFACES** (including tubs and showers, tiles, vanity tops, shower curtains, grout, sinks, washable walls, wall paper, floors, window sills, concrete or stone surfaces and garbage cans)

Spray. Always apply only to clean surfaces. Dilute one part of the of MicrobeCare Antimicrobial to three parts of water and mix or shake well. Apply to surface using a trigger pump sprayer or pressure sprayer. Spray entire surface from 4 – 6' distance until completely covered. Allow to dry thoroughly before use. If spotting occurs, wipe with moist cloth or sponge.

**GROUT AND CEMENT MIX ADDITIVE** For use as a grout or cement additive, add MicrobeCare Antimicrobial directly to the dry mix during the grout or cement preparation. Use 25 fluid ounces of of MicrobeCare Antimicrobial per 5 pounds of dry grout mixture. Follow directions for grout or cement using MicrobeCare Antimicrobial as part of the added water. Addition of MicrobeCare Antimicrobial inhibits the growth of odor causing bacteria, bacteria which cause staining and discoloration, fungi (mold and mildew) and algae on the surface of the cured grout.

**FILTERS AND FILTER MATERIAL** (Aquarium filters, vacuum cleaner filters and air)

Spray. Always apply only to clean surfaces. When treating filters, remove filter from unit. Dilute one part MicrobeCare Antimicrobial to three parts of water and mix or shake well. Apply to surface using a trigger pump sprayer or pressure sprayer. Spray entire surface from 4 – 6' distance until completely covered. Allow to dry thoroughly before use.
